

Playbook

Inspired recreational solutions
for everyone

Product Catalogue – 9th Edition

The best fun

At Playground Centre, we use pure fun to inspire play, social interaction and a healthy lifestyle. We design and create play and recreation spaces that deliver exceptional value – for playground owners and managers in terms of cost, quality and durability; and for playground users who enjoy all of the physical, social and emotional benefits our playgrounds provide.

Inspired products

- Traditional swings and slides to themed playgrounds, fitness systems and outdoor electronic gaming.
- Clever and bespoke designs backed by the latest research into the physical, emotional and social benefits of play and fitness.

Trusted team

- Energetic experts with 100 years' combined experience.
- Uncompromising safety and quality: for products that last a lifetime.

Sensational service

- Anything or everything: design, planning, installation, after-sales support and spare parts.
- Fantastic 'off the shelf' solutions or unique, customised playgrounds.

Everywhere

- Amazing play spaces across New Zealand and Australia.
- Export to countries throughout the Asia Pacific Region, the Middle East, and almost anywhere.

Pure fun
to inspire
play!

Pure peace of mind

With outstanding compliance standards, you know that you're getting incredibly safe equipment that's built to be enjoyed.

ISO9001: 2015 Quality assurance

Ensures quality of our management system.

Safety standards

Ensures safety of our manufactured and globally sourced play and fitness equipment.

216-221

The perfect combination

When it comes to great play and fun fitness, we're proud to provide the complete package.

Lasting products & partnerships

Exceptional safety, quality, strength and durability. Expertise, efficiency and track record you can rely on.

Community & planet life

Genuine, proven commitment to customers and communities. Inclusive approach to ensure equality and accessibility. Environmental and sustainable practices and outlook.

For everyone

Designed to embrace all ages and abilities with all inclusive options. Developed to meet universal needs for play, learning and wellbeing.

Fresh & best

Leading trends translated into innovative and creative solutions. Bespoke solutions to ideally match specific needs, themes and settings. Global partnerships for the best and widest selection.

Life, skills & safety

Targeted physical benefits, development and social skills. Safe, age-appropriate challenges.

Our Sustainability Commitment...

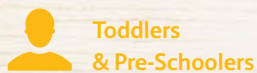

Visit our website or scan the QR code to read about our commitment that starts with a focus on quality products that last and extends to the everyday decisions we make to minimise our impact on the environment and contribute to a thriving economy and society.

The keys to great play

Our playgrounds and products target important developmental benefits and specific age groups. Here's the key to symbols used throughout this catalogue.

Every age

Toddlers
& Pre-Schoolers

Primary to
Big Kids

Teenagers to
Young Adults

Whole Family /
Young at Heart

Development benefits

AGL

Agility (AGL): Is the ability to move and change direction and position of the body quickly and effectively while under control.

BAL

Balance (BAL): Evenly distributing one's weight to remain upright and steady.

CO-ORD

Co-ordination (CO-ORD): The organisation of different body parts so they can work effectively together.

FMS

Fine motor skills (FMS): Skills required to manipulate and gain control over materials and tools including grasping, manipulating and hand-eye co-ordination.

FLEX

Flexibility (FLEX): The capacity of a joint or muscle to move through its full range of motion. Good flexibility is an important part of the overall fitness profile and is also important for injury prevention.

GMS

Gross motor skills (GMS): The ability to control large body muscles including the arms, legs, hands, feet, head, neck and torso - for walking, running, sitting, crawling, climbing, balancing, jumping, catching, throwing and striking. These skills foster a lifelong ability to participate in physical activity including sport and recreation.

ICP

Imaginative or Creative Play (ICP): a style of playing where a child uses their imagination during play time. It allows a child to explore their own identity, make decisions and create their own rules, control behaviour and practice the act of creation which helps develop sense-of- self and boosts confidence. During creative "let's pretend" playtime, a child experiences new thoughts and feelings and begins to learn how to respond.

LOCO

Move in any and every direction.

SD

Social Development (SD): The ability to interact and work with others, and the acquisition of skills for effective relationships (ie sharing, waiting a turn, working as a team).

TW

Team Work (TW): The process of working collaboratively with a group of people in order to achieve a goal.

Serious confidence

Built for durability and low maintenance, our products provide value and hassle-free performance.

- ✓ Meet or exceed quality assurance standards.
- ✓ Meet or exceed all relevant safety standards.
- ✓ Backed by comprehensive warranties.

See page 215 for detailed information about quality, safety and warranties.

Playground Slides

A timeless source of childhood memories, the humble slide has come of age.

Available as individual units or equipment modules, our range includes customised tube and chute slides, embankment slides and junior slides – in a huge array of shapes, sizes, curves, colours and materials. An engaging and safe experience is paramount and thrills are guaranteed!

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

Rotational Moulded Plastic Slides

All we require from you:

- Platform or mound height
- Any necessary ground slope measurements
- Preferred type

Types available

- Tubular straight slide
- Tubular curved slide
- Tubular spiral slide
- Combination tube & chute slide
- Chute straight slide

Age Groups

Appropriate for:

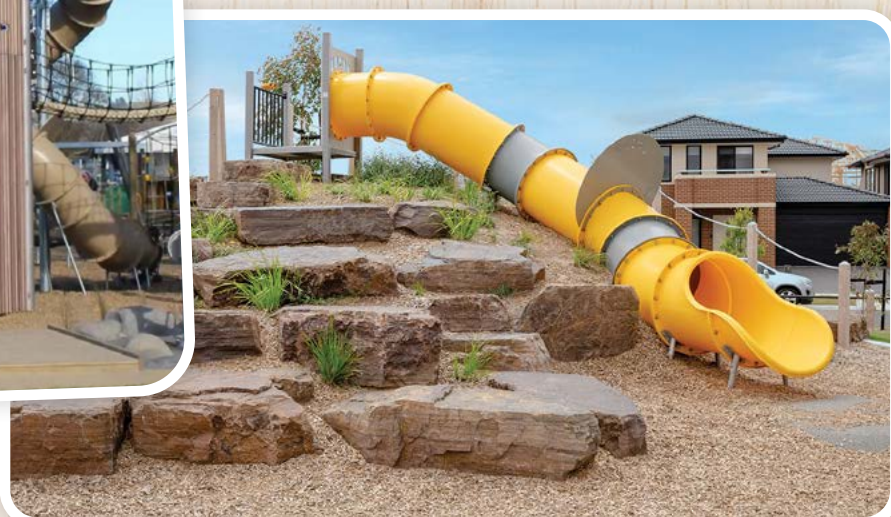

Superior design features of rotational-moulded tunnel and chute slides

- Flanged mouldings for strength
- Large 750mm internal diameter
- Design keeps all fastenings away from sliding surface
- Stainless steel anti-theft fasteners saving on maintenance and vandalism
- Special 'multi-directional' leg supports which are totally adjustable on site, giving maximum support
- Unique ergonomically designed tube and chute integration moulding
- Integrated CAD system with each slide for simple installation on-site
- 5-year non-fade colour guarantee.

our modular play
systems

?

Did you know...

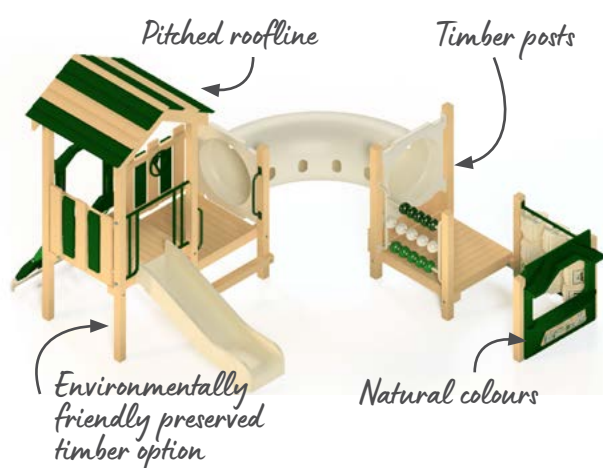

Playground designers and landscape architects can easily utilise modular play systems to realise their vision for a unique structure integrating different play functions, combining a variety of colours and materials, and adapting the size and shape to the space.

Modular Play

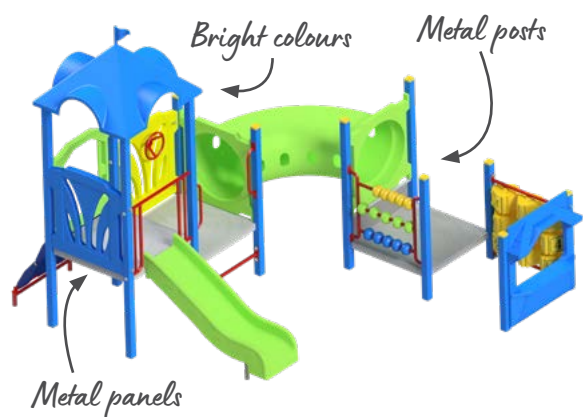

We bring you the ultimate in flexible playground design with our Modular Active Play Systems.

Choose a mix of equipment to suit your needs and then select from the below finishing options and materials to match your space. With the bonus ability to add and change components easily and cost-effectively down the track. It's your choice!

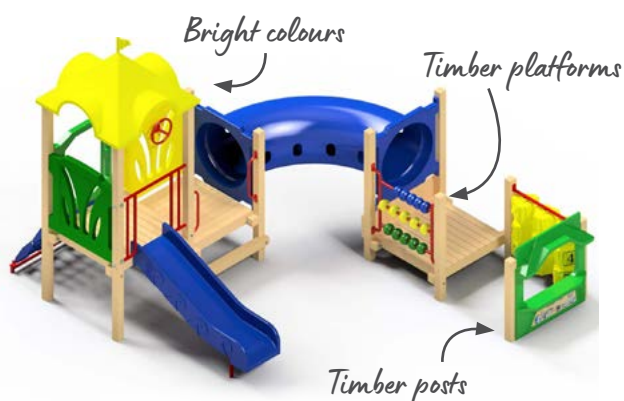

Environmental

Adapt to your environment. The Enviro range allows your play equipment to blend, chameleon-like, into its surroundings. The sturdy, timber structures feature colour highlights and an environmentally friendly preserved timber option.

Metal

When play is serious business. The Metal range guarantees your playground will stand up to high use and harsh weather conditions without compromising the fun! It's got all of the features and fixtures that entice kids to play, with a no-nonsense finish that keeps vandals and termites at bay.

Timber

Solid performance. Timber adds a warm, welcoming feel to any playground while delivering all of the strength and durability you demand. Tried, tested and true, the range is manufactured from sustainably sourced timber and can be complemented by a range of modern colours.

Climbing Nets

Climbing nets are magnets for all ages, combining 'peak' fun with big personal benefits.

Choose from a huge array of adventures for different ages and abilities, all while supporting physical and mental development. From a 2.5-metre toddler pirate tower to the nearly 8-metre Matterhorn: it's the height of excitement from any perspective.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

our climbing nets

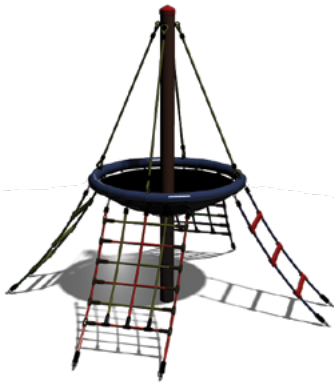

?

Did you know...

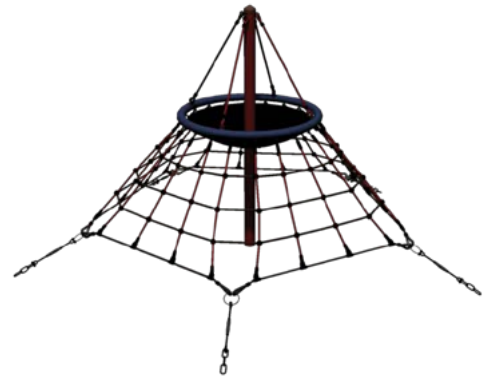

Succeeding at climbing requires that kids learn how to think and act with confidence, making quick decisions about the best route to take, and relying on their own physical strength and mental abilities.

7m Black Forest Tower with Cubby House & Slide

Standing 7m tall, this amazing new design climbing structure features an awesome cubby house to climb up to and take in the views. Assorted with multiple play activities, this rope tower will challenge you, no matter how old you are!

Activities include:

- Central vertical climbing chimney up to the top
- 1000mm diameter Honeycomb Birds Nest Basket with ladders
- Chunky rope Bridge with ladders
- Net Tunnel with scramble net
- Various ladders & scramble nets & ropes

Safety, quality, durability and usability

- Compliant with NZ, Australian & European Safety Standards
- Hercules Rope Construction
- Hot dip galvanised steel posts and rails
- Robust Construction

Measurements

- Size: 15.1 x 10m
- Area: 151m²

Developmental benefits

Age groups appropriate for

HDG Steel Central Mast

6m Eagles Nest with Bridge & Slide

Complete your play space with this extremely popular net, combined with a bridge & slide.

Activities include:

- 4 x 1200mm diameter Baskets suspended at different heights
- 3 connecting Ladders between Nests
- 2 Climbing Chimneys
- 5 Climbing Ropes
- Diverse garland & hanging ropes

Measurements

- Size: 16.8 x 11m
- Area: 185m²

Safety, quality, durability and usability

Health & Fitness

Meet the soaring demand for outdoor exercise equipment with these fresh ideas.

Welcome to the new world of free outdoor fitness: from 'ninja' challenges and parkour to junior adventure courses and senior exercise stations. A proven hit (and full-body workout) for all ages, you'll find the perfect fit for any park, school, retirement village or recreation space.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

our health &
fitness equipment

Did you know...

Physical activity recommendations for 5 to 18 year olds include at least 60 minutes of moderate and vigorous physical activity every day.

Max Health

Max Health Individual stations are ideal additions to urban areas, parks and playgrounds, and when you don't need a full fitness zone, individual gym stations can provide a big workout with a small footprint. Incredibly space and cost efficient – there are choices to suit different demographics, abilities, needs and budgets.

Our Flex frame combos focus on lower body and core muscles, with the ability to add upper body exercises using static equipment. Our Techno frame combos incorporate more complex moving parts, with options for resistance training to build upper body strength.

Mix and match: Combine two stations to create one perfect solution

Techno Frame Combo

Techno station + Flex station.

1. Choose your Techno station.
2. Add a Flex station.

Note: Combination of Techno stations (Techno + Techno) NOT possible.

Flex Frame Combo

Your choice of two Flex stations:

Flex station + Flex station.

Techno Stations

Choose a Techno station to go with the Techno frame, and then choose a Flex station to add on.

Outdoor Fitness Zones

Outdoor gyms are more popular than ever, with growing demand for free and unstructured physical activity in the fresh air. A real community asset, exercise equipment is now commonly located in parks, schools and universities, in retirement and aged care homes and along esplanades.

To make it easy and effective, Playground Centre has developed three 'outdoor gym' concepts for different-sized spaces, budgets and needs. Each has been expertly designed to provide a full-body workout with equipment chosen for a range of abilities and age groups.

4-square box:

Free squats, calf raises or press ups for agility, speed, cardio and muscle strength.

Compact but clever

There's still plenty of free space for all kinds of exercises, from push-ups to burpees and star jumps.

Agility 'tyres' (circles):

Footwork drills and skills for cardio, balance, motor skills, speed.

Agility 'ladder' (lines):

Standing or squat jumps and walking lunges for cardio, speed, coordination, joint and ligament strength

Compact Outdoor Gym

Outdoor Swings

Today's swing sets are simply sensational, with an exciting array of shapes, sizes and materials.

From flying saucers to the 'supa six', our swing sets are shaking things up! They're sensory-rich, safe and durable, with inclusive options galore. Hammocks, big baskets – and even face-to-face (intergenerational) swing seats – great play is in full swing.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

our outdoor
swing sets

Did you know...

By using swings, children develop gross motor skills, including balancing and body coordination. They also develop fine motor skills including hand, arm and finger coordination, and grip strength. It helps with sensory integration (particularly for autistic children) and develops sensory stimulation to respond to movement and gravity.

Spring & Motion

Rocking and spinning equipment sets delight in motion, all while supporting crucial sensory systems.

Our head-spinning range of spring and motion equipment ranges from toddler rockers to flying foxes. Great for developing spatial awareness, their attraction spans the ages – whether you want a gentle twirl on a carousel or a “maxi whirl” with an overhead spinner.

Product sizes, area measurements and images may vary from time of the catalogue’s publication. Please refer to our website for up to date measurements and information.

Inclusive Play

An accessible playground promotes all-in enjoyment, inspires interactive play and enriches communities.

Our accessible equipment draws people of all ages and abilities together to share good times. We provide a choice of sensory and interactive play, basket swings, carousels and wheelchair trampolines – as well as expert advice on creating more inclusive playspaces.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

Learn more about
our inclusive &
accessible play

?

Did you know...

Inclusive play spaces offer the opportunity for all children to play alongside one another. This supports the physical, social and cognitive development of all children, and benefits everyone.

Inclusive Play

For ease, we have categorised the main play benefits that provide the foundation for all-inclusive fun.

Body & Balance

Supports body position awareness (proprioception) and sense of balance (vestibular sense) plus other physical benefits.

Sensory

Provides valuable sensory input to support development and/or help guide and navigate children who have a sensory impairment (e.g. low vision).

Variety

Choice of play types and challenge levels to suit different abilities and ages.

Quiet

Calm zones and/or opportunities for rest, passive relaxation or to play solo.

Heights

Play opportunities can be accessed at a variety of heights.

Access

Everyone can access the main play piece and have meaningful play experiences (including people in wheelchairs).

Togetherness

Multi-user equipment and spaces that support social play and development.

Imagination

Opportunities for imaginative play.

Generation Embracing

Allows easy caregiver supervision and multi-generational play opportunities.

Swings are a great inclusive activity as they are great for all ages, stages and abilities.

Basket Swings with our extra-large 1200mm diameter basket are great for not only a large number of users, but also for those with limited ability – by themselves, or with friends, parents or carers.

Our range features different baskets, seats, hammocks and more – some are shown below and for more options included in our vast range refer to the ‘Swings’ range on pages 83-96 or visit our website.

Towers

Towers are magnets and talking points for fun-lovers of all ages – with a host of health benefits.

Balancing, climbing, crawling, socialising: towers have it all. Our wide range of outdoor play towers includes smaller units for little ones or fully customised and drawcard towers that reach for the sky. Choose different components and combinations to create a truly standout space.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

Activity Square Tower 8606

The Activity Square tower is rich in play options for children of all ages and abilities placing a big emphasis on fun and enjoyment for the whole family.

Features include:

- Our cleverly-designed square tower gives us the freedom to create an 'out-of-the-box' structure for any park.
- When the children have climbed as high as they want, they can slide down the massive, curved tube slide fitted to the tower.
- This tower can also be easily customised with different designs and cladding on the outside of the tower.

Measurements

- Size: 13.1 x 9.9m
- Area: 88m²

Code: MOMP8606

Safety, quality, durability and usability

- Compliant with NZ, Australian & European Safety Standards
- UV Stabilised Plastic
- Conditional 25 Year Warranty
- Triple Coat Protective Powdercoating

Customised Towers

Wobbly Wood

Embrace rustic woods and natural textures to highlight the environment and help kids thrive.

Studies show that children who play outside are more likely to cherish and protect nature when they become young adults. Use natural and irregular shapes and surfaces to stimulate the senses, nurture physical capabilities, and let your local landscape shine.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

Toddlers & Preschool

Our toddler and preschool play equipment develops young brains and bodies through fresh flexibility.

Our range of Bambino Combos and Bambino activities are a hoot for littles with easy affordability for grown-ups. From tunnels to mini-playgrounds: they're portable, interchangeable and can be combined to 'grow' your play space as time and space allows. Shape a different adventure every day.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

?

Did you know...

Active play is essential for all children. It's recommended that toddlers (1 to 3 years) and preschoolers (3 to 5 years) should be physically active every day for at least three hours, spread throughout the day.

For Fixed Equipment,
see Modular Play Section.

Bambino – Waterplay Starter Combo A

Code: BOMOCOMA

Age: 

Includes

- 500mm Cupola Tower
- Water Pump
- Water Pump fitting pipe
- Gutter
- Downpipe
- 2x Buckets

Bambino – Sandplay Starter Combo B

Code: BOMOCOMB

Age: 

Includes

- 500mm Cupola Tower
- Scoop with chain
- Sand Table & Sieve

Bambino – Sandplay Starter Combo B & Building Site Combo C

Image shows both Sandplay Starter Combo B and Sandplay Building Site Combo C joined together

Code: BOMOCOMBC Age: 

Includes

- 2 x 500mm Cupola Towers
- 2 x Scoops with chain
- Sand Table & Sieve
- Sand Wheel
- Sand Transporter

Bambino – Sandplay Activity Crane Starter Combo D

Code: BOMOCOMD Age: 

Includes

- 500mm Cupola Tower
- Sand Crane with chain & bucket

Moveable Equipment

For Fixed Equipment,
see Modular Play Section.

Bambino – Starter Combo E

Code: BOMOCOME

Age: 

Includes

- 300mm Cupola Tower
- 500mm Cupola Tower
- Overbridge
- Mini Slide

Bambino – Starter Combo F

*components may vary per country

Code: BOMOCOMF

Age: 

Includes

- 2 x 300mm Cupola Towers
- Connecting plank
- Access Plank

Bambino – Starter Combo G

Code: BOMOCOMG

Age: 

Includes

- 500mm Cupola Tower
- 800mm Cupola Tower
- Slide (to suit 800mm cupola tower)
- Access Plank
- Hump Bridge

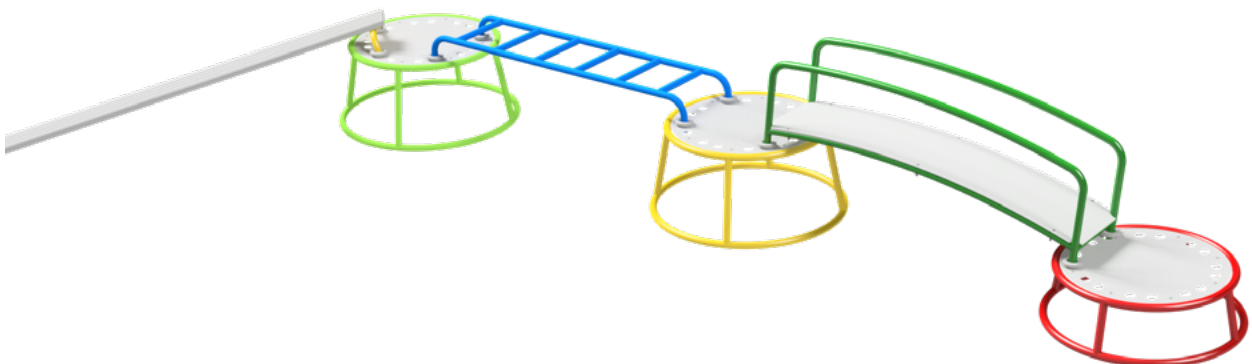

Bambino – Starter Combo H

Code: BOMOCOMH

Age: 

Includes

- 1 x 300mm Cupola Tower
- 2 x 500mm Cupola Towers
- Access Plank
- Ladder Bridge
- Overbridge

Bambino – Starter Combo I

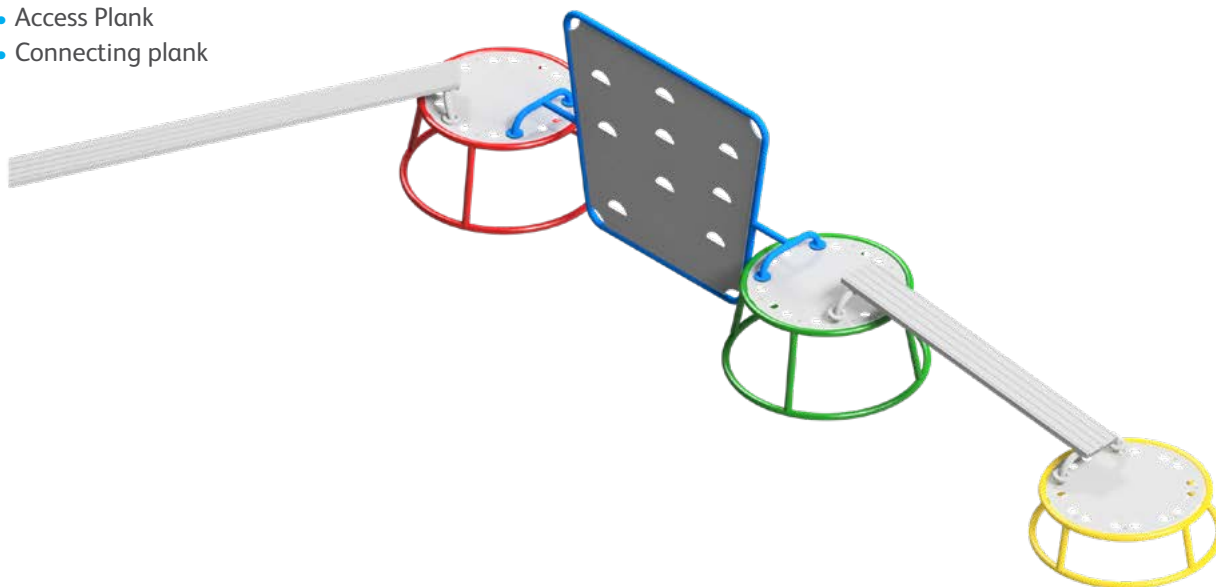

*components may vary per country

Code: BOMOCOMI

Age: 

Includes

- 1 x 300mm Cupola Tower
- 2 x 500mm Cupola Towers
- Hand & Foot Climber
- Access Plank
- Connecting plank

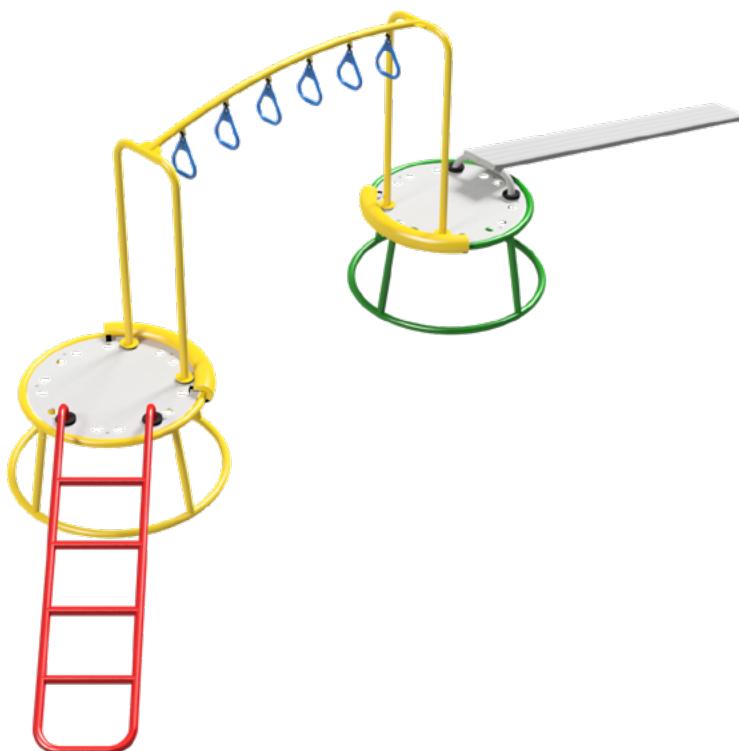

Bambino – Starter Combo J

Code: BOMOCOMJ

Age: 

Includes

- 2 x 500mm Cupola Towers
- Access Ladder
- Access Plank
- Trapeze Rings

For Fixed Equipment,
see Modular Play Section.

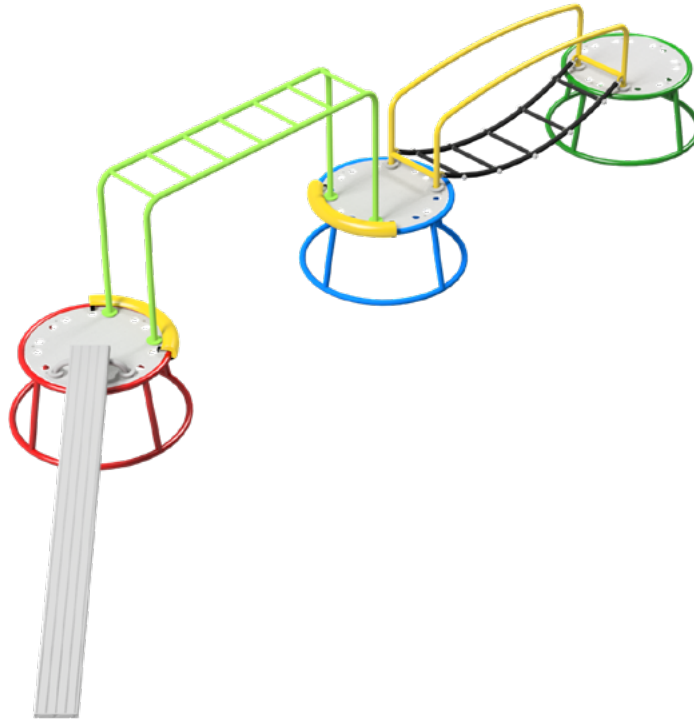

Bambino – Starter Combo K

Code: BOMOCOMK

Age: 

Includes

- 3 x 500mm Cupola Towers
- Overhead Ladder
- Tarzan Bridge
- Access Plank

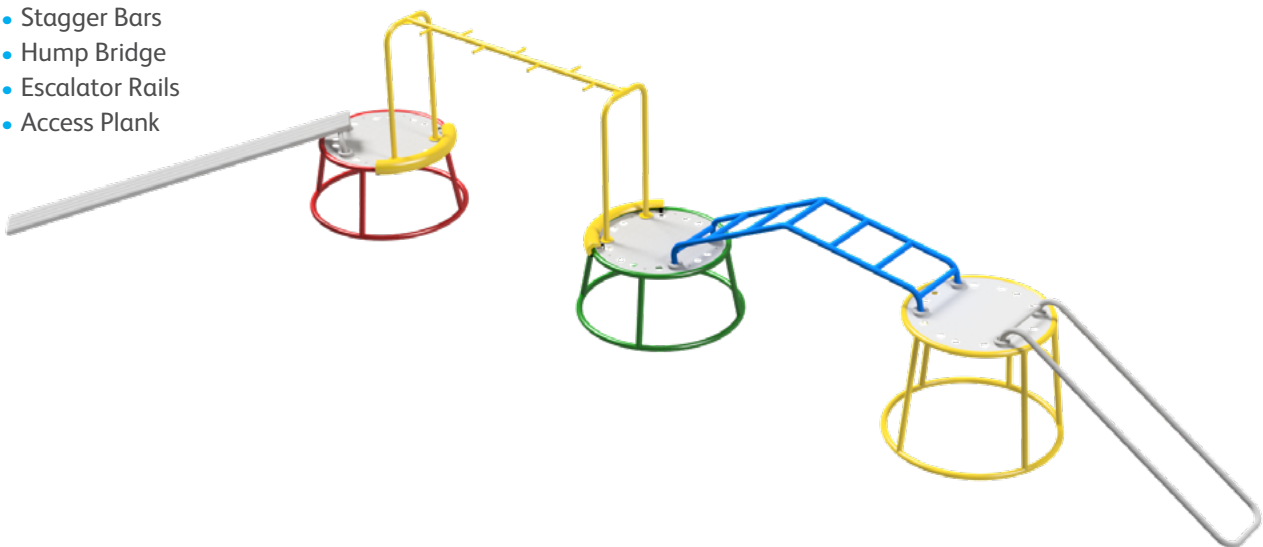

Bambino – Starter Combo L

Code: BOMOCOML

Age: 

Includes

- 2 x 500mm Cupola Towers
- 1 x 800mm Cupola Tower
- Stagger Bars
- Hump Bridge
- Escalator Rails
- Access Plank

Bambino – Starter Combo M

Code: BOMOCOMM Age: 

Includes

- 3 x 500mm Cupola Towers
- Access Plank
- Hand & Foot Climber
- Overhead Ladder

Cupola Tower - 300mm high

Code: BOCU300PC

970mm diameter

Cupola Tower - 500mm high

Code: BOCU500PC

1080mm diameter

Cupola Tower - 800mm high

Code: BOCU800PC

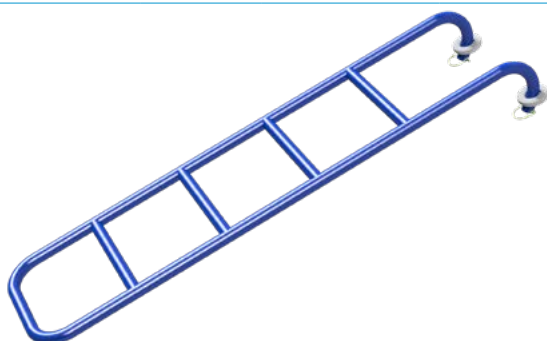

1200mm diameter

Access Plank

Code: BOPLA1PC

2400mm length (suits all Cupola heights)

Access Ladder

Code: BOLAA1PC

Sand & Water Play

Sand and water are natural attractions for children, providing hours of sifting, scooping and splashing fun.

This tactile play also comes with valuable sensory experiences, motor skills development, and exposure to simple science and maths concepts. Our range is any child's dream – with sand lifts and sieves, water pumps and channels, and in-demand diggers.

Product sizes, area measurements and images may vary from time of the catalogue's publication. Please refer to our website for up to date measurements and information.

Have Fun with Colour

Your playground's colour palette influences how kids play (and how long they stay), as well as opinions of your space.

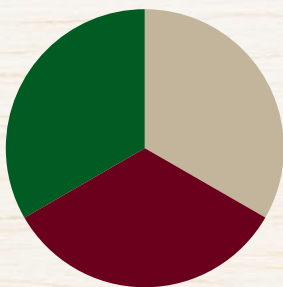

We've made it easy and cost-effective to get it right, with a choice of our four most popular colour combinations. Or you can get creative, and mix and match colours from our custom range.

Pick a popular colour combo

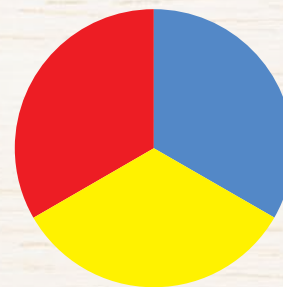

Environmental

Studies suggest that kids prefer playgrounds with natural materials and forms. Inspire imagination while encouraging interaction and extended playtimes – all while integrating beautifully with the natural environment.

Simple and Fun

Want to grab their attention and stimulate the senses? Bright, primary colours scream 'fun' and appeal to all kids, especially the developing eyes of toddlers. These colours are all about energy and excitement!

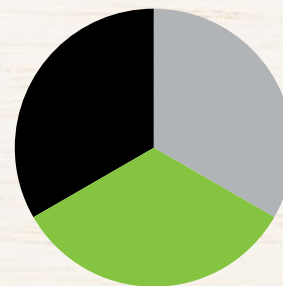

Quirky and Colourful

If you want a playground that feels bold and original, a unique colour combination that 'pops' could be perfect. It's a striking palette that sets the scene for creativity and adventure.

Modern and Edgy

For a modern twist, choose sleek colours with an industrial edge. Attract children and impress adults by turning traditional play spaces into enticing (and almost architectural) destinations for great times that are on trend.

Or, choose custom colours to suit your style and space

Moulded Plastic

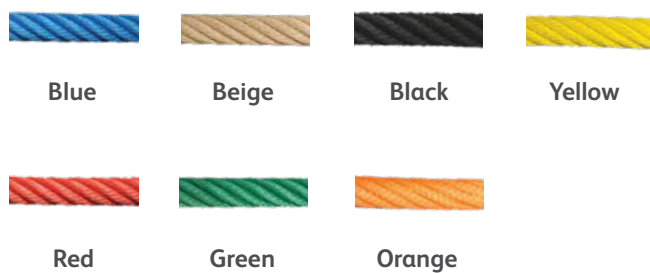

Steel Activities

Ultra-Tuff (High Density Polyethelene)

Ropes

Stained Timber

! Colours shown are approximate. Actual colours may differ slightly depending on the material and production process. Colour samples are available on request.

Hercules Rope

We only use German-manufactured rope. “Hercules rope” describes the construction of rope using a fibre and steel wire mixture for reinforcement.

Abrasion-resistant Hercules Rope

Hercules rope consists of six twisted steel strands, which are each composed of individual, galvanised threads. The result is a rope that is extremely resistant and exceptionally robust.

Polyester yarn covering

Every strand is coated in a high quality polyester yarn. Unlike other synthetic materials, polyester is exceptionally abrasion-proof and has a very high colour and UV durability.

Secure attachment

Specially-made fittings create a secure attachment between the steel core and the fabric polyester jacket.

Abrasion testing

Regular abrasion tests on a specially-developed testing machine attest its superiority over other types of rope. In the abrasion tests, a frictional object is rubbed back & forth over the ropes surface (‘double stroke’), until it reaches the steel core. The number of double strokes completed reflects the increased protection of our ropes in the face of repeated use.

Range of colours

Blue, Beige, Black, Yellow, Red, Light Grey, Green depending on product choices.

Good Clean Fun

Anti-Bacterial Playground Equipment

We're all about healthy fun. That's why we're proud to offer a select range of play equipment that can be made with anti-bacterial polymers.

Across the world, there has never been a sharper focus on hygiene and infection control measures. Anti-bacterial materials can bring much-needed peace of mind for parents, teachers, carers and communities. Adventurous play and exposure to certain germs are essential to support childhood development, great memories and robust immune systems. Now there's a smart way to make shared fun safer in your community or school as a specifier, Council representative, or school administrator.

Bacteria-busting polymer

We can incorporate anti-bacterial polymers during manufacture, providing constant and ongoing protection for the product's lifetime. We can do this for select parts of our playground equipment, that are made from plastic, e.g. crawling tunnels, slides and barrier panels. The polymers have been independently tested and proven to decrease the presence of surface bacteria, and are especially effective against staph infections that cause fevers, rashes and blisters in children.

Goodbye mould, algae... and pong

These polymers are also proven to significantly reduce the growth of mould and algae. In especially wet, shaded or humid environments, this provides real ongoing benefits – helping to prevent not only discolouration and associated odours, but also making areas less prone to be slippery and unsafe. Extremely strong, durable and heat resistant – to withstand years of rough and tumble, the polymers come with Playground Centre's anti-fade warranty.

Non-toxic and proven effective

Often used in medical environments, the active ingredient is non-toxic and approved by the FDA (US Food and Drug Administration).

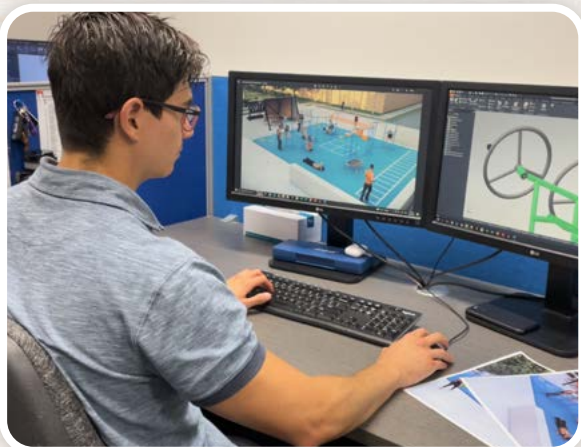

Imagine these high-traffic and high-touch areas now being "more hygienic", "cleaner" and "safer"!

Find out more: Talk to us about using anti-bacterial protection for your play equipment. Be assured of safer fun for everyone.

We Collaborate to Create

From design to installation, we provide expertise, dedicated service and a spirit of fun at every step.

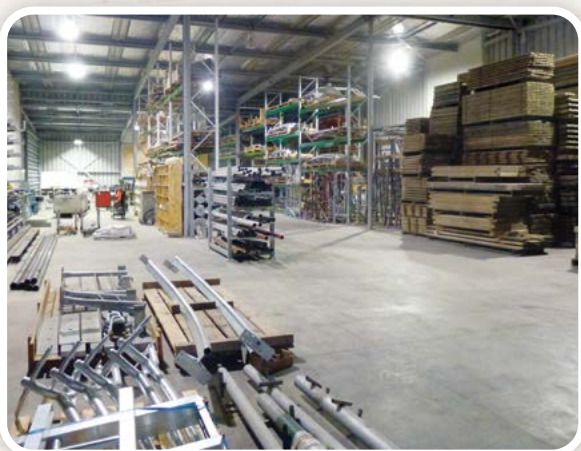

Full Service

Result*

Design nous

As playground design specialists, we balance the needs of play seekers (playground users) with the needs of play makers (playground builders, owners and maintainers) to create spaces with what we call 'maximum play value'.

- In-house planning & design
- Visual concepts & detailed drawings
- Product selection

Manufacturing expertise

Benefit from our 30+ years' experience in play and fitness equipment design and manufacturing.

- We manufacture an extensive range of products at our purpose-built facility in Wanganui.
- We have the capability to create tailored solutions, custom-made to your unique specifications and needs.

Plus, we partner with other world-leading play equipment manufacturers to bring you a select range of the latest, most innovative products from Europe.

Installation

We have a network of trained installers to professionally install your equipment and ensure compliance with safety regulations.

Our design process

Discover

Who the play space is for

- Who will use the play space?
- What are their ages, abilities and backgrounds?
- What matters to them?

Design

The play space solution

- Develop design concept, applying **The Great 8 Principles of Best Practice Playgrounds** (and with our safety certification expertise at the fore).
- Select and tailor play equipment
- Seek feedback and finalise detailed design.

Explore

Play possibilities

- Are there specific play needs?
- What do they love / don't love about other playgrounds?
- What inspires them to play and be active?

Deliver

Where play comes to life

- Manufacture play equipment
- Site preparation
- Install equipment and complete safety certification via our own accredited specialists.

Download the guide
