playground
centre® 
fun is for life!

A playground is more than just slides and swings – it's a place for fun, wellbeing and happy memories.

That's why we're excited to share some of our most engaging and creative playground projects of 2016 with you.

All of the playgrounds in this book are designed to nurture minds and bodies, and each one was created for a unique group of children and a community of parents and caregivers – all of diverse ages, stages and abilities.

As you'll discover within these pages, with each project, we turn visions into a colourful, fun-filled reality.

Whether it was a completely custom creation or a tailored-take on our tried-and-true packages, our playgrounds feature only the best equipment to entertain and engage for many years to come.

We hope they put a smile on your face too and we look forward to co-creating many more play spaces with you in 2017.

The height of fun at Western Park

The customised towers were complemented by other unique equipment and specialised tube slides to suit the unique site and create a place for fun, well-being and memories.

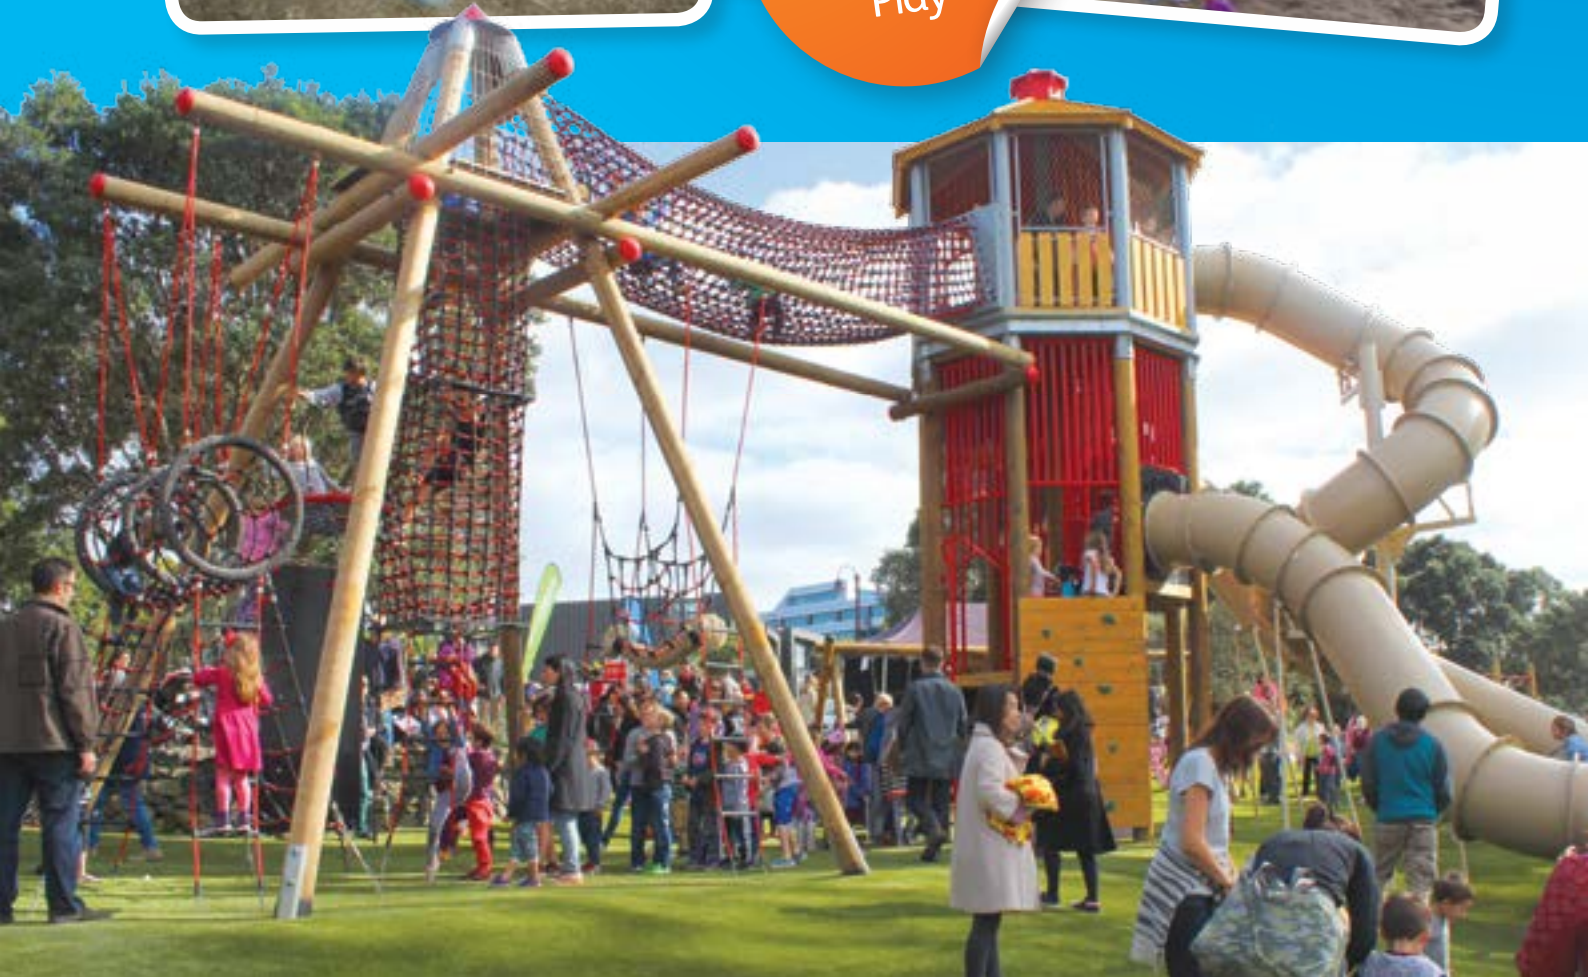

People power in Takapuna

The Takapuna community came together to create a fun-filled playground like no other, that's loved and can be used by all in the neighbourhood.

Challenge and variety at Onehunga Reserve

Featuring the naturally irregular structure of Robina wood, this rustic style playground seamlessly blends into the beautiful surroundings at Onehunga Reserve. Children love the challenge and tactile play experience of the Wobbly Wood structures.

Churchill Park's sea of fun!

All aboard the Play Ship Pinta for hours of interactive and creative fun. Clever design, naturally beautiful timber and climbing nets stimulate the imagination. A wonderful complement to the other all-accessible equipment in the park.

New levels of fun at Frimley Park

This exciting and enticing community space includes inclusive features for people with disabilities or vision impairment. The result is a truly stimulating environment that takes engagement to new levels.

Hamilton Gardens

A sweet and shady retreat

Integrated into an existing garden is this customised and unique timber playground. Natural wood blends perfectly creating a quaint, magical space.

Dominion Park brings smiles a mile high

A customised tower brings fun at every level and perfectly complements the tube slides, nets and structures that beg to be climbed and explored! It's varied, it's unique and it's all fun, fun, fun.

The joy of learning at Goldfields School

Play that stimulates development and physicality as well as imaginations and creativity is our speciality. This all-inclusive playground was customised especially for this special needs school.

Whimsy rediscovered at Sandringham Reserve

The bustling and diverse area of Sandringham is now home to a fun and whimsical playground.

With the centerpiece a Wobbly Wood play module, children and adults alike now enjoy every element of this fort-like design.

Get moving in Grey Lynn

Clamber, scramble, climb and swing! Wobbly wood climbing structures and nets complement fun and accessible swings for an exploration experience made for younger ones to enjoy.

A pop of fun at Potters Park

A bright and colourful polka dot design punctuates this unique looking 'Pick Up Sticks' playground. With a customised tower, specialised tube slides and other unique equipment, memories are made daily at Potters Park.

Making every day different at Samuel Miller Reserve

Twin tube slides were custom made to suit this unique site and safety specifications. The standout, side-by-side slides foster healthy and fun competition!

Dancing snake takes the cake

The 'Googonian' community created an irresistible playground to match its unconventional spirit, with a modern-day spinning maypole and an ambitious, elevated Birds Nest Tower.

Sculpture Park, Mundaring – WA

The ultimate flight

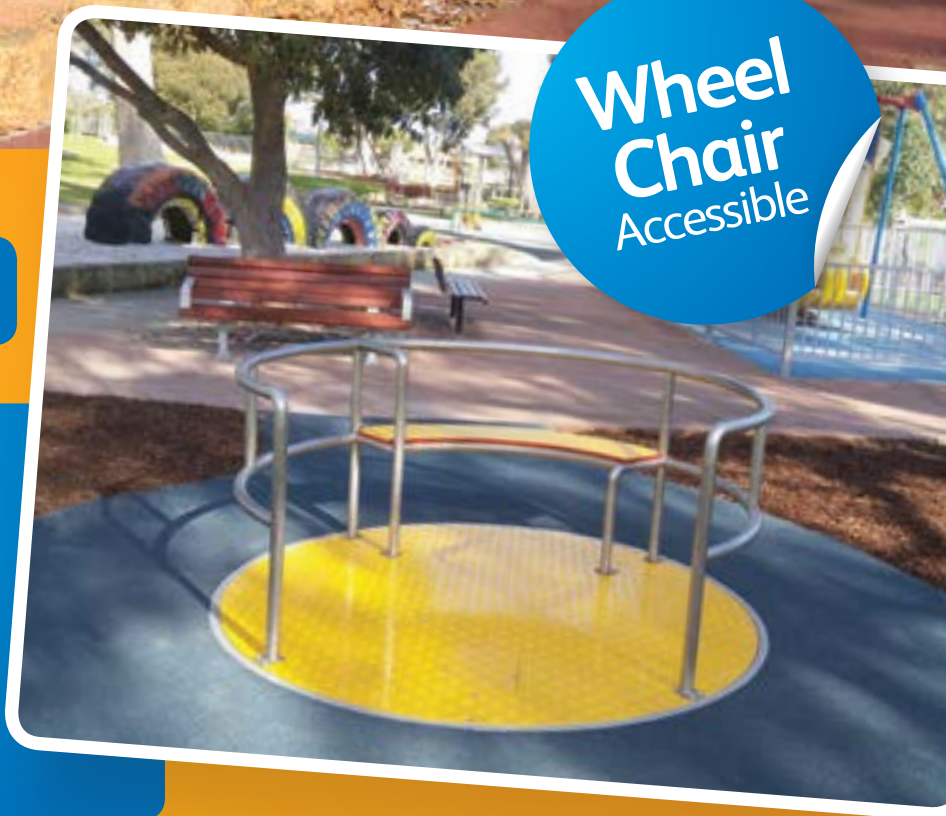

It was the ‘piece de resistance’ that earned rave reviews for a quirky Perth playground: a Jarrah timber flying fox. Our amazing software made it simple, right down to the precise cable speeds and seat heights for the perfect blend of exhilaration and safety.

Caterpillar Park, Mandurah – WA

A carousel for everyone

Play is better when everyone can access it! This carousel promotes fun and all-inclusive play.

Yanchep, Jindowie – WA

Bee happy at Yanchep!

A space for busy little bodies, this playground boasts a Birds Nest Tower, Basket Swing and Bee Rocker – all inclusive and all fun for bodies of all ages!

Blank canvas to masterpiece

We work with many community groups who want to make a difference in their communities. The Country Women's Association in the Clare Valley is just one of these. They successfully turned an empty, flat site into a beautiful, natural space and thrilling adventure playground.

Inspired by nature

With wetlands, dog park and shady spots, Strowan Reserve is popular with the whole community. Our Wobbly Wood climbing unit fits right into its surroundings and adds a dynamic level of fun to everyday play.

A sensational way to play

School breaks are never long enough as many hours of fun can be found on these Jungle and Funnel Web climbing structures. These playground staples promote problem solving, coordination and team work!

A part of the community

A playground is at the heart of every community and Highlands Estate park is no exception. With a Seesaw Ship, Collis Climbing Unit, Titan City Slide, Eco Drum and Mulberry Bush Carousel, this park is fun for everyone.

Teen play offers fun and fitness

Who would have thought a fitness course for teenagers and adults could be so much fun? And 'fit' was the name of the game in more ways than one. The adventure course provided a challenging, full body workout while the custom-designed solution had to fit within a tight budget and narrow strip of land between the road and Bibra Lake. The playground also included a slide down an embankment, sand pit and in-ground trampolines providing fun for the whole family.
