

## FALLZONE

The diagram illustrates a trenchless installation setup. A horizontal dashed line represents the **Ground Level**. Above it, a solid line indicates the **Top of Safety Surface**. A vertical dimension of 500 is shown between the ground level and the top of the safety surface. A vertical dimension of 700 is shown between the ground level and the top of the trench. The trench is shown in cross-section with a diameter of 250Ø. The trench is filled with a material, and a vertical dimension of 600 is shown for the depth of the trench. A vertical dimension of 100 is shown for the depth of the trench below the ground level. The text **Refer to Safety Surface Supplier** is written in red at the top left.
